From the Table - Just a Bite

Onions-Food for Thought

Onions have always played an important role in my family's diet. So important in fact, that my sister and I made a pact that any men in our lives would meet certain criteria; one of which is that they must like onions!

Onions and food have a natural affinity in my world. It is amazing how the heat of a raw sliced onion transforms into sweet caramelized perfection in a sauté pan. How the types of onions one may use and the manner in which one may manipulate them, provide a rainbow of colors, flavors and textures,

I have to say that while I really never embraced my father's love of a raw onion sandwich, his belief that you can never have too many onions in a good chili was not lost on me!

Onions have a long rich history and played many varied and important roles through the centuries and in countless cultures throughout the world. They have not only offered sustenance, but have been used for medicinal purposes, as religious and political symbols, used in burials, given as gifts, used as payment and been the subject of prose and poetry. They have also been the subject of mystery, myth, superstition, and assorted facts and foibles. (More about this in next month's article)

Onions, shallots, garlic, leeks and chives all belong to the same family of plants - the Alliums. They were first documented as being cultivated in Egypt beginning 3200 BC. They believed that onions, like garlic, provided strength and stamina and prevented illness. According to historians, the Egyptians spent nine tons of gold to pay for all the onions and garlic used to feed the thousands of slaves who built the Great Pyramids. Onion images were depicted on the walls of many pyramids and found in the hands of King Tut, when his tomb was unearthed. They were also used in the burial of Ramses IV, placed in his eye sockets. The belief was that the strong scent of onions would bring breath back to the dead.

Onions as well as other plants, spices and food products found their way through Europe and the Mediterranean, introduced by expanding nations and explorers. Ultimately, onions were introduced to the Americas by Christopher Columbus. Wild and cultivated onions now grow throughout the world. In the United States, they can be found in every state.

Globally, onions are the second most important crop. There are over 600 species of Allium. Onions are available fresh, frozen, pickled and dehydrated. They are eaten raw, cooked, roasted and stewed. They can be sliced, chopped, and minced. As an herb, they may be dried, granulated, powdered, toasted and flaked or made into a paste with other seasonings. For those who don't like the appearance or texture of onions but still wish to experience the flavor and/or health benefits - onion juice is available.

The flavor of onions may be sharp, spicy, tangy, pungent, mild or sweet, depending on the variety and how it is used. Onions are used in cooked dishes more often than they are used raw. Many savory dishes begin with sweating or caramelizing onions. In this form, they may become the base for many sauces, gravies and soups. The slow heating of the onions sweetens and mellows their flavor.

Onions can be used as ornamentals, medicines or other remedies, but for me I simply love to use them as vegetables or condiments to tempt and tease the palate.

Although there are countless ways to use onions, one of the simplest and most satisfying ways to me, is Onion Soup. It can be humble fare or dressed up to suit the occasion or taste buds.

The recipe I present here is simple. I adjust it based on the members of the onion

family that may be on hand. I jotted it down years ago and it has become a staple in our home for a quick and easy meal.

Five Onion Soup

Serves 4

Ingredients:

- ¼ cup butter
- 3 shallots (about 3 ounces) finely sliced
- 1 small yellow onion (about 5 ounces) thinly sliced
- 1 small red onion thinly sliced
- 2 green onions, chopped
- 1 leek (light green and white parts only) chopped
- 1 tablespoon minced garlic
- 1/8 teaspoon ground cloves
- 4 cups beef broth
- 2/3 cup dry sherry

Instructions:

1. Melt butter in a large heavy duty Dutch oven over medium heat
2. Add shallot, all onions and leek. Sauté until golden
3. Add the minced garlic and the cloves
4. Stir in the broth and sherry. Bring to a boil, and then reduce heat to medium low. Cover and simmer 30 minutes.

Serve as is or continue with variation below.

Variation: Baked Onion Soup

Use only oven safe bowls that can withstand high heat temperatures for variation

Additional ingredients- for topping

- 2 tablespoons butter, melted
- 1 teaspoon minced garlic
- 4 slices of French bread
- ½ cup grated fresh Parmesan cheese
- 4 slices Swiss cheese
- 4 slices Mozzarella cheese

Instructions:

1. Be sure the onion soup is at a simmer
2. Preheat broiler. Combine 2 tablespoons of melted butter with 1 teaspoon of minced garlic in a small bowl. Place bread on a baking sheet and brush 1 side of the bread with the garlic butter mixture. Broil bread until lightly toasted. (About 2 minutes). Turn bread over and repeat the process. Sprinkle with Parmesan cheese.
3. Heat oven to 500 degrees f. Place bowls on baking sheet. Ladle soup into bowls. Top each bowl with one of the toasted bread slices. Place 1 slice Swiss cheese and 1 slice of Mozzarella cheese on top of each toast piece. Bake soup in hot oven until cheese melts- about 10 minutes

Bowls will be VERY HOT- handle with care- we serve on hot pads
