## Annual Bass Tournament 2024

Article & photos by Dale Miedema,  
Communications Commission

Dawn on this past June 8 found a cloudy sky, with rain in the forecast, but that didn't dampen the spirits of 22 fishermen gathered for the annual tourney. The lake was mirror flat, save for a few little ripples mid lake, conditions that most of the guys found quite favorable. Tournament director Chuck Hart went over the rules of the tourney, but most all the guys were quite familiar with the rules as they change very little year to year. After all the live wells were inspected to be indeed empty, Chuck gave the 'Lets Go' at 6:23.

As the guys went to their boats, there was the usual ribbing, but the thing I especially enjoyed hearing was some of the anglers wishing one another 'Good Luck' - a wonderful display of excellent sportsmanship. As the boats fanned out over the lake, it was apparent that all the guys had a special spot in mind where they figured the big ones could be found. The plan was to be back on the beach for the 1pm weigh-in with at least 6 nice bass in the live wells. Being late meant disqualification, and nobody wanted that!

At the time of the weigh-in, there no disqualifications as all were on time, and all teams had the required 6 bass. Many guys commented that it was an excellent morning of fishing, as the bite was great, and the overcast skies kept all from frying in a hot sun, but also the rain held off. Our lake once again proved what an excellent fishery it is with another record this year of 6 bass weighing an amazing 29.86 pounds! In fact, the winning team of Dru Appelhans and Mark Fry added some theatrics to the fun by pretending it took both guys to carry their winning catch to the scales. And the winning team also won Big Fish, with a 5.36 pound beauty. The top 3 teams were all smiles as they had their pockets filled with their winnings. Another bass tourney is in the books, and we all look forward to next year.

## From the Table - Just a Bite

By S.L. Bartels, Drew Ct.

July is such a great month, full of things to enjoy and celebrate! The beginning of berry season, fresh locally grown produce at farmer's markets, 4th of July festivities and so much more...

I learned a lot of fun food facts recently that I think you may enjoy...

- American Astronauts have been growing peas, lettuce and other simple produce aboard the International Space Station since 2003. In 2020 they began growing a spicy Mexican chili pepper. It seems "the sense of taste is dulled in outer space and so Astronauts often request spicy food." Now they can spice up their food with what they grow!

Here are some fun facts about how America eats tacos according to a survey from the Food Network

- 51% prefer flour tortillas 49% prefer corn tortillas
- The most popular day for tacos? #1- Tuesday #2- Saturday
- 30% eat tacos at least once a week
- 63% eat 3 or more tacos in one sitting
- 58% add Jalapenos to their tacos
- 53% prefer soft tacos 24% hard tacos 23% say it depends on the place
- 52% say breakfast tacos are not for them 48% think they are the best
- Favorite fillings? 48% beef 17% fish 16% chicken 15% pork 4% veggies

Speaking of spicy foods...

### What's your Tex-Mex IQ?

- List the chili peppers in order from least to most spicy: \_\_\_\_\_  
A. Poblano B. Serano C. Jalapeno D. Habanero
  - Which of these chain restaurants started in Texas? \_\_\_\_\_  
A. Chili's B. Taco Bell C. Moe's D. Chipotle
  - "Chimichanga" roughly translates to? \_\_\_\_\_  
A. Cowboy burrito B. Whodunit C. Crispy tortilla D. Whatchamacallit
- True or False
- \_\_\_\_\_ Taco Bell lobbied for a taco emoji.
  - \_\_\_\_\_ Refried beans are fried twice.
  - \_\_\_\_\_ Calling food "Tex-Mex" was at one time considered an insult.

Answers on page 10.

Here are a couple great bites for any celebration.

### Pinchos

- In a bowl combine:  
1/2 cup sofrito\*  
1/3 cup olive oil,  
1 1/2 tablespoons adobo seasoning  
1 1/2 tablespoon sazón  
1 1/2 teaspoons onion powder  
1/2 teaspoon pepper  
1 1/2 teaspoons granulated garlic

- Toss mixture with 2 1/2 pounds pork tenderloin (cut into 2 inch cubes) and marinate overnight.
- Thread the meat onto skewers, leaving space at the bottom of each.
- Grill over medium- high heat for 3 minutes per side. Flip again and cook for 2 more minutes. Brush with barbecue sauce, flip again and cook 2 more minutes.
- Remove from the grill, brush with more barbecue sauce and let rest 5 minutes.
- To serve, add a piece of grilled bread to each skewer.

\*Sofrito- consists of garlic, onion and peppers cooked in olive oil, and optionally tomatoes or carrots. It is available at the grocery store.

### Tomato & Avocado Sashimi Salad

Clean, Drain, Dry... In every waterbody, every time.

Preventing the spread of aquatic invasive species starts with you. A cooperative effort is necessary by all persons and agencies involved with recreational activities to achieve the best results and protect our aquatic resources and recreational opportunities.

**CLEAN** off visible aquatic plants, animals, and mud from all equipment before leaving water access

- Rinse equipment and boat hulls (with high pressure, hot water when possible)
- Rinse interior compartments of boats with low pressure, hot water (120°F)
- Flush motor with hot water (120°F) for 2 minutes (or according to owner's manual)

**DRAIN** motor, bilge, livewell, watercraft bladder tanks and portable bait containers and other water containing devices before leaving water access.

**DRY** everything for at least five days OR wipe with a towel before reuse.

For **ANGLERS**, the additional step of **DISPOSE** is recommended:

- Clean off plants, animals, and mud from gear and equipment including waders, footwear, ropes, anchors, bait traps, dip nets, downrigger cables, fishing lines, and field gear before leaving water access. Scrub off any visible material on footwear with a stiff brush.

**DISPOSE** of unwanted bait, worms, and fish parts in the trash. When keeping live bait, drain bait container and replace with spring or dechlorinated tap water. Never dump live fish or other organisms from one water body into another.

Together the three steps of Clean Drain Dry greatly minimizes the risk of spreading Aquatic Hitchhikers into new locations.

- Cleaning will remove visible large-bodied organisms attached to or in watercraft or recreational equipment. Rinsing with water removes organisms, while hot water often kills them. Water at least 120°F is recommended; be sure to avoid contact with skin and check manufacturers' recommendations to ensure equipment can withstand high temperatures. If hot water is not available or may cause damage, rinsing with tap water and completely drying will help prevent spread of aquatic invasive species.
- Draining removes small and nearly invisible organisms such as zebra mussel larvae potentially entrained in water containing devices.
- Drying is necessary as many organisms can survive in standing water.
- Never dump live fish or other organisms from one water body into another.

**Does Your Roof Have Hail Damage or Missing Shingles?**

Don't assume the recent storms in our area did not cause damage to your home

We offer FREE storm damage assessments of your property.

This includes assessing your roof, siding, gutters, and windows. Hail damage may not always be visible to the untrained eye, it takes a trained professional to identify how hail may have affected your exteriors and compromised the longevity of its current life span. Missing or damaged shingles can lead to complete re-roof. Your insurance is obligated to return your home to pre-existing storm conditions. We advocate for our customers to ensure they get a fair settlement, and all damages are covered and repaired by your insurance!

It was quite by accident that I met Rion Tovar, but from the minute we met, I knew she was an extremely energetic, friendly, knowledgeable, and willing to accommodate your specific needs. All questions and concerns were addressed, we sold our house in one day, we purchased a new home, and all interactions went very smoothly. Everyone in the office was incredibly helpful, and if they said they were going to do something, they followed through. I have recommended Rion to several of my friends.
